

## Comparing Apple Watch Sizes

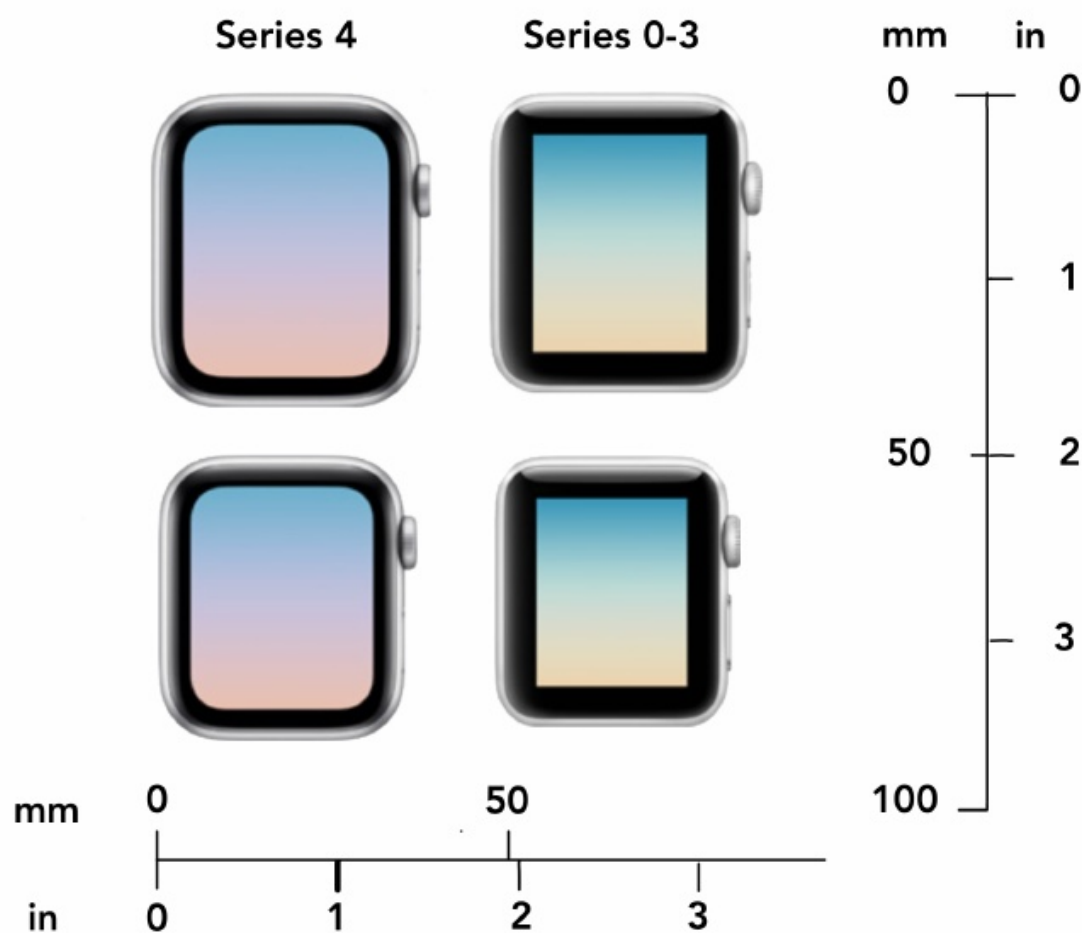

Small changes make big differences. You should still compare Watches in store to get the feel of their weight and volume, but here's how their size measures up.

William Gallagher

## Comparing Apple Watch Sizes

When Apple gives a Watch dimension, it's always solely the vertical one. Yet the width is important to how the Watch feels on your wrist too.

## Comparing Apple Watch Sizes

Series 0-3 42mm

Series 0-3 38mm
